Ivy Institute Pty Limited trading as Ivy College (RTO Code 40718) proudly delivering on behalf of Study Group Australia Pty Limited (RTO Code 5806), an approved VET FEE-HELP provider.
To successfully complete this qualification students are responsible for securing and undertaking a work placement of 150 hours at a suitable beauty clinic or salon, performing practical beauty therapy tasks with a range of clients. Ivy will assist students with finding a suitable work placement, if required.

What if I can’t find a suitable work placement?

If you are unable to access a work placement you will be required to practice, demonstrate and apply the required skills and knowledge at Ivy College workshops, utilising a simulated or real beauty clinic environment and supervised by your trainer.

Our unique blended learning model offers the ultimate flexibility. Study online at your own pace, supported by your trainer, then attend quarterly workshops at one of our training locations in Sydney, Brisbane, Melbourne and Perth. At the workshops you will:

- receive practical training on essential components of this course
- develop and demonstrate the skills required of a qualified beautician, and
- access personal support from your trainer.

Whilst the workshops are not mandatory for those students with an approved work placement, it is highly recommended that all students attend the quarterly workshops. For anyone unable to secure a work placement, workshop attendance is mandatory. Workshop dates and locations are subject to change and minimum numbers. Latest schedule is published online at www.ivy.edu.au.
