Work Placement and Workshops

**Work Placement**

To successfully complete this qualification students will participate in a Work Placement of up to 200 hours within a clinic environment. During their Work Placement students will need to perform practical tasks to industry standard, and with a range of clients. Ivy can assist students with finding a suitable work placement to satisfy this essential component of the course.

*What if I can’t find a suitable work placement?*

If you are unable to access a work placement you will be required to practice, demonstrate and apply the required skills and knowledge at Ivy College workshops, utilising a simulated or real naturopathic clinic environment and supervised by your trainer.

**Workshops**

Our unique blended learning model offers the ultimate flexibility. Study online at your own pace, supported by your trainer, then attend regular workshops at one of our training locations in Sydney, Brisbane, Melbourne, Perth or Adelaide.

At workshops you will:

- receive practical training on essential components of this course
- develop and demonstrate the skills required of a qualified Herbal Medicine practitioner
- complete the First Aid subject, and
- access personal support from your trainer.

Whilst the workshops are not mandatory for those students with an approved work placement, it is highly recommended that all students attend. For anyone unable to secure a work placement, workshop attendance is mandatory. Workshop dates and locations are subject to change and minimum numbers. Latest schedule is published online at [www.ivy.edu.au/courses/natural-therapies/advanced-diploma-western-herbal-medicine/](http://www.ivy.edu.au/courses/natural-therapies/advanced-diploma-western-herbal-medicine/)
